

OUR GOAL: FLEXIBILITY AND EVOLUTION

Esclusivo. Originale. Italiano.

INGEN DESIGNS AND MANUFACTURES MACHINES, PLANTS AND ELECTRONIC CONTROL SYSTEM, WITH PARTICULAR ATTENTION TO THE OPTIMIZATION OF THE PROJECT IN ORDER TO ACHIEVE FLEXIBILITY AND EVOLUTION. THANKS TO OUR LONG-STANDING EXPERIENCE WE GAINED A DEEP PROFESSIONAL KNOWLEDGE IN DIFFERENT INDUSTRIAL FIELDS, SATISFYING BOTH END USERS AND OEM.

EXPERT ADVICE

In order to increase our customers' knowledge and give them a full service, INGEN offers technical and informative advice, from engineering to safety regulations. We manage to convey our experience and competence through one objective. To complete the offer, our high qualified team provides customized training course. The service is suitable not only for OEM or end users, but also for institutions and schools.

DESIGN

INGEN is the answer for customers who choose outsourcing for a prompt reply, looking for professionalism, flexibility and confidentiality. Thanks to our skilled technical staff and our state of the art equipments, we provide a full design service. An updating R&D activity allows us to meet customers' needs with innovative solutions.

REVAMPING

INGEN offers the most effective and innovative solutions to improve and optimize every productive process. Thanks to the experience gained in different sectors, we grant a professional service of revision and industrial renovation.

CONSTRUCTION

We aims at developing a constructive relationship with our Clients, in order to reach a mutual satisfaction thanks to the most efficient solution. For this reason we propose a customized turnkey service that includes design, construction, first start and assistance of every kind of automatic special machine or plant. We ensure to satisfy our customers' requires according to the technical regulations.

Customized contracts for post-sales service and technical assistance offer specific warranties and allow us to keep a long-lasting customer's business.
